

Krishi Vardan

18:18:10

NPK Granular Mixture Fertilizer (18:18:10)

Balanced nutrition – bumper harvest!

Dose	**50–100 kg per acre (depending on crop)**
Packing	**50 kg**
How it is used	**Soil application**

Features

- A balanced mix of nitrogen 18%, phosphorus 18% and potash 10%.
- Supplies all the major nutrients the crop needs from the start.
- Quick availability with a long-lasting effect.
- Makes root growth fast and strong.

Benefits

- Fast, healthy crop growth.
- More flowering and fruit setting, and a marked rise in yield.
- Better tolerance of disease and stress.
- Helps the crop make good use of other fertilizers.
- Helps the leaves build chlorophyll.

Mix into the soil before sowing or at the first fertilizer dose.
