

Krishi Vardan

20:20:00

NPK Granular Mixture Fertilizer (20:20:00)

Powerful growth – the start of a bigger harvest!

Dose	**50–100 kg per acre (depending on crop)**
Packing	**50 kg**
How it is used	**Soil application**

Features

- A balanced ratio of nitrogen 20% and phosphorus 20%.
- With no potash, it is especially useful for early growth.

Benefits

- Fast, healthy early growth.
- Strong, deep root growth.
- Taller, greener plants.
- Prepares the crop well for flowering.
- Helps other fertilizers work effectively.

Apply as a basal dose before sowing or at planting. Use it early if seedlings grow slowly; applying it before flowering gives good growth.

Contents

Total Nitrogen, N(T)	**20%**
Total Phosphorus, P(T)	**20%**
